and Prepared Succor -- Is There a

continued duel a combat s, do strange things, and Ils for over a year, and was well ing the deer-for a square of forty miles around. Especially were the fathers in this bovine Israel known to me.
All were sober, grave fellows, who went heavily though decorously about, betray-ing in their low, rumbling undertones

ing in their low, generally accompanied wherewith they generally accompanied their walks, as well as in their dignity of their walks, as well as in their dignity of them as leaders of these mountain herds. These cattle have a strong home net and abide for years, and finally lay their bones to rest in some bushy nook of the very vale they were born in. Un-less forced by storms or mankind they seldom travel from their home, and even then they come sturdily back as soon as the pressure is removed. In illustration | end. communication which exists be-

tween cattle I one day saw this Near my camp a 2-year-old ball had friendly, gentle and intelligent that the thstanding—and this young gen-n was quite a pet. He appeared to nearness of my camp and never far away. The ponies, too-I had were a source of delight to him, and ve seen him combing their coats with agh tongue for hours, playing, ind, the barber, while the shampooed August, such state and territory comply-

e closed its eyes and drooped its shag-

One day at noon, while engaged with coffee pot and trying pan, and busy dodg-ing the eager pitch-pine flame of my fire, which lapped out a yard in all dire as the wind was here and there, the low, deep note of some alien bull came swellng down the valley. I looked up and saw at a short distance an animal of conable size and about 5 years coming riskly towards us. This bull was look ig for trouble. He was not an unusual haracter among these mountain cattle, who now and then become errant and warlike, and rove the hills far and near, templating the erecting of a school of flinging the glare to all whom they meet, mines laid plans for the erection of the sort of bovine Don Quixotes.

unter, and, although not half the size the Agricultural College might be run as of the invader, strode promptly forth to an adjunct, and the United States nor bloody. It is more a trial of strength and the cost of building and laying out and endurance, and generally is confined to strong, persistent pushing, the pates being in conjunction. I suppose, however, this pushing is only preliminary, and should it go on until one sunk in United States a few days since, and yes-

The Colestial subject of the following I at once knew him as a sycophantish hanger-on and courtier of a mammoth will be readily identified by Prescott

sanger-on and courtier of a mammoth only who abode in Long's caffon five miles over the divide to the east and "Charley Fong is a vegetable vender" rgued that his master was not distant and Charlie has catablished a credit in for. I was right, for I soon descried this tremendous character lumbering through the brush and coming straight in the wake of the little bull. Don Quixote, too, dearly appreciated the situation, for, while he did not fly, he put on an air of worried humility as does a detected criminal who sees his punishment at hand. The little bull came up bristling with rage, but made no attack, waiting for the friendly giant from Long's. The white steer arrived first, and being a vainglorious fellow, and noting the submissive air of Don Quixote, deemed it a grand chance to demonstrate his valor, I was right, for I soon descried this Phenix that is not extended to many of grand chance to demonstrate his valor, days, and Charlie trusts lots of his cusnever doubting but his master was near tomers until pay day. He had a good enough to grant him aid if he should be wagon and a stout pair of horses, and ressed too sorely. With this he lowered cold or hot weather never makes any diff is horns and charged while yet his maswas twenty rods away. Now, Don a cap that he pulls down over his ears uixote might fear the mammoth, but and in summer the same cap, folded in, he white steer was a very different mat- is perched on the top knot made by his ter, so, lowering his frontlet, he at once twisted queue.
